COOPERATION | COMMUNICATION | COORDINATION | COLLABORATION

Every good long term recovery includes ...what?

Disaster Casework and Disaster Case management

...are functions in support of empowering and of addressing the basic needs and recovery needs of individuals and families.

Construction Management

...consists of overseeing repairing or rebuilding homes to safe, sanitary, secure and functional condition.

Volunteer Management

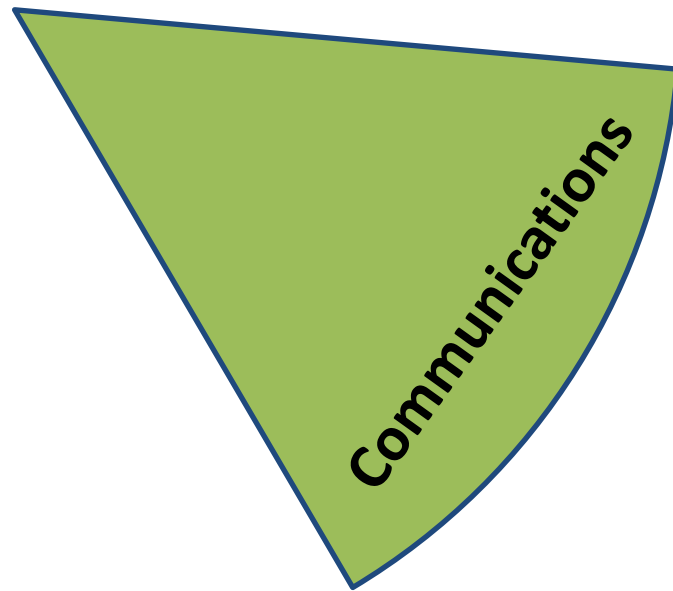

Volunteers are a key component to disaster response and should be managed and treated as a valuable resource throughout all the phases of disaster.

Communications

Having a good communications strategy is essential for the success of a long term recovery group.

Donations Management

Responders who know how to effectively manage donated goods are more efficient at leading their community toward recovery.

Emotional and Spiritual Care

Addressing the emotional and spiritual needs of individuals, families and communities can kindle important capacities of hope and resilience.

Financial Controls and Reporting

It is the responsibility of the LTRG, along with its fiscal agent, to ensure that good financial controls are in place.
